

GENERAL CLEANING GUIDELINES:

The lustrous finish on your product should be treated with care. Most finishes will age gracefully depending on the climate, exposure, handling, cleaning, and routine maintenance.

For best results, please remember the following
General Cleaning Guidelines:

- Wash surfaces gently with a soft damp cloth; use a neutral liquid soap with water for daily cleaning.
- Rinse completely with water, dry any overspray.
- Never use an abrasive material such as a brush or scouring pad to clean surface. The use of abrasive cleaners, cleansers or disinfectants will alter the surface finish and void the warranty.
- Avoid placing razorblades or other sharp instruments on the surface, as they may scratch it.

To preserve finishes as they look when new, follow our **General Cleaning Guidelines** and a semi-annual wax routine. Using a high quality clear carnauba paste wax, massage a small amount of wax and polish with a clean soft cloth.

Note that prolonged contact with certain items such as toothpaste, air freshener, cologne, shaving cream, nail polish remover, vinegar, anti-bacterial soap and wines will also alter all surface finishes and void warranty.

TYPE OF FIXTURES

ACRYLIC

In addition to the general cleaning guidelines, a non abrasive basin tub and tile cleaner can be utilized for regular cleaning and disinfecting.

- Clean grease, oil, paint and ink stains with isopropyl (rubbing) alcohol. Rinse well and dry with a soft, clean cloth.
- Do not allow your acrylic surface to come into contact with nail polish, nail polish remover, Wintergreen oil (methyl salicylate), dry cleaning solution, lacquer thinners, gasoline, pine oil, etc.
